

## Product Specification

|                   |                              |
|-------------------|------------------------------|
| ProductName       | Molybdenum powder (Mo)<br>钼粉 |
| Catalog No.       | 4201010                      |
| CAS No.           | 7439-98-7                    |
| Molecular Formula | Mo                           |
| Molecular Weight  | 96.00                        |
| Bp °C             | 4825 °C                      |
| Mp °C             | 2622 °C                      |

---

| Test          | Standard         |
|---------------|------------------|
| Appearance    | 灰黑色粉末            |
| Purity        | 99.95 %          |
| Particle Size | FSSS: 1.8 - 2 μm |
